TOTAL FOR TIMELINESS			

NOTE **The above points are not automatic. Points will be given based on timeliness, completeness, and quality.**

Choose from one of the following general topics for your research project:

PERSON

- Research the major events in the person's life
- Investigate as to how these events impacted his/her life or career
- Based on the above research, discuss his/her impact on society (positive or negative)
- Analyze the impact on history if the events of this person's life had not occurred

EVENT

- Research an important historical event
- Discuss what led up to the event
- Highlight the major features of the event
- Synthesize how this event has effected history and why it supports learning about history

Or

- Support or criticize the individuals and decisions made to carry out this event.

Students must have their research materials with them **EVERY DAY**. If a student does leave his/her work at home and he/she "has nothing to do", extra work will be assigned and **work ethic points will be reduced**.
